

Name: Klaus, Meyer-Steffens  
Job Title: Manager Coordination International Projects  
Company: National Rejectors, Inc. GmbH  
Country: Germany

---

### Professional background:

Klaus Meyer-Steffens is graduate in civil engineering (Dipl.-Ing.) for electronics.

Since 1979 Klaus Meyer-Steffens has been working for National Rejectors, Inc. GmbH, Germany, a manufacturer of payment systems. In 1986 he took over the responsibility as Manager of the Research & Development department.

Since 1990 he has been attending the Mint Directors' Conference as industrial observer to support coin related issues in view of the vending industry. Due to his involvement in different working groups he disposes of experiences referring collaboration with the EU commission and banking side.

In 2006 he took over the responsibility as Manager Coordination of International Projects at NRI. At the moment he is chairmann of the EVA/WVA Coin Group, member of the EVA Technical Committee and EVA Cashless Committee and is representing the BDV. Further on he is member of different national and international working groups for coin related subjects.
